Education

Concordia University

M.A.SC. IN INFORMATION SYSTEM SECURITY

Montreal, Quebec, Canada

May 2023 - Aug. 2026

EAFIT University

B.S. IN COMPUTER SCIENCE AND ENGINEERING, GPA: 4.28/5

Medellin, Colombia

Jan. 2018 - Dec. 2022

Skills

DevOps AWS, Docker, Vagrant, Linux, Ansible, Kubernetes, Terraform, Terragrunt

Back-end Laravel, Django, REST API

Front-end Bootstrap, HTML5

Programming Python, JAVA, LaTeX, C++, C, PHP, R, Matlab, GTK3

Languages Spanish (Native), English (Fluent), French (Basic)

Experience

Mitacs/Ericsson

MITACS RESEARCH INTERN

Montréal, Canada

Sep. 2023 - Dec. 2023

- Use of Ansible as an automation tool for deployment of server tools and configuration.
- Use of Docker for testing vulnerabilities and exploits.
- Use of Kubernetes for app deployments and vulnerabilities research.
- Research Kernel and 5G vulnerabilities.

Pyxis SAS

DEVOPS ENGINEER

Medellín, Colombia

May. 2022 - March. 2023

- Use of Terraform and Terragrunt for IaC construction and deployment in AWS.
- Use of Ansible as an automation tool for deployment of server tools and configuration.
- AWS Networking and Configuration for High Availability and High Scalability in applications.
- Use of Docker for environmental configuration and deployment of applications in AWS.

Empresas Públicas de Medellín

DATA SCIENTIST INTERN

Medellín, Colombia

Aug. 2021 - Feb 2022

- Use of Data Science programming languages [Python, Matlab, R].
- Build Machine Learning Models for hydrological forecasting.
- Data Analysis of the models' results.
- Build WebScraping Tool to extract data from XM.com.co.
- Build API connector tool to get data from XM.com.co to analyse data.

EAFIT University, Apolo Supercomputing Center

RESEARCH ASSISTANT

Medellín, Colombia

Aug. 2020 - Dec. 2020

- Linux System Admin, review packages for vulnerabilities.
- Deployment of private web-apps in Docker to secure the cluster.
- Created "LMOD module generator" script for apps usage [Bash].
- Use of Ansible and Vagrant as an automation tool for deployment of server tools and configuration.
- Install HPC applications for cluster users.

Extracurricular Activity

Various CTFs

Montreal, Canada

PARTICIPANT

Feb. 2024 - Present

- Participated in NorthSec 2024 and NorthSec 2025 CTFs.
- Participated in PolyPwn 2025 and 2026 CTF (Third place in the 2026 edition).
- Participated in @HACK 2024 CTF.

AtHack CTF

Montreal, Canada

ATHACK ORGANIZER

Feb. 2025

- Helped organize @Hack CTF event where more than 300 participated.
- Gave support on challenges to participants.

GEMIS (Student group for the Computer Science faculty of EAFIT University)

Medellin, Colombia

GEMIS MEMBER

Sep. 2019 - June 2022

- Helped organize social events and award shows during each semester for the CS Students where more than 150 people participate in.
- Elected Financial Director from Jan.2021 to Jul.2021 where I had to organize the budget of the events and gatherings for the students from the CS faculty.

Honors & Awards

DOMESTIC

2019 **1st Place**, EAFIT University's Computer Science Faculty Prize for Software Development of the year for SUMA. [Medellin, Colombia](#)

Courses & Certificates

Cloud and DevOps Fundamentals. Cloud and Automation tools.

EPAM Learning

CERTIFICATE

Apr. 2025

AWS Certified Cloud Practitioner

Amazon Web Services

CERTIFICATE

May. 2023

Complete Ethical Hacking Bootcamp 2022: Zero to Mastery

Udemy

CERTIFICATE

Jun. 2022

DevOps in the Cloud with Terraform, Ansible, and Jenkins

Udemy

CERTIFICATE

Jun. 2022

- Deployed Grafana and Prometheus to EC2 instances using DevOps tools Terraform, Ansible, and Jenkins.

Significant Projects

Asynch

Iowa Flood Center

C, LINUX, BASH, DOCKER

Jun. 2021

- Added support for Docker to the Asynch application by the Iowa Flood Center.

LMOD Module Generator

Apolo Project

BASH

Dec. 2020

- Developed a simple script for creating modules based on app location, with its respective environmental variable for use in Linux systems.
